

The preschool kiddos will be finishing up the spring unit "The Great Outdoors" and beginning the "Destination Summer" unit. The curriculum themes will cover fun in the sun, traveling, the sea, building sand castles, and summer picnics. Finally, we want to extend a special congratulations to all our Pre-K graduates. We are so proud of all you have accomplished this year!

Health & Safety

Did you know we installed a bio-defense technology called Synexis? This technology is installed in the HVAC system in each room. It destroys all viruses, bacteria and mold in the air and on surfaces. Please go to www.synexis.com for details.
