Celebrate Autism Awareness Month!

Every Friday- Wear Tye-Die/blue/or puzzle shirt

Autism is a bio-neurological developmental disability that generally appears before the age of 3. Autism impacts the normal development of the brain in the areas of social interaction, communication skills, and cognitive function. Individuals with autism typically have difficulties in verbal and non-verbal communication, social interactions, and leisure or play activities. Individuals with autism often suffer from numerous co-morbid medical conditions which may include: allergies, asthma, epilepsy, digestive disorders, persistent viral infections, feeding disorders, sensory integration dysfunction, sleeping disorders, and more.
