Adrian had lots of fun exploring foam paint while painting the number 7!

### Parietal Lobe Activity

#### Lacing Loops

*We will give the children O-shaped cereal and we will help them guide it onto a pipe cleaner. When the pipe cleaner is full, we will make it into a circle and ask they children where it will fit. On their head, on their wrist, etc.*

**Research shows the body trains the brain, so when toddlers use fine-motor skills in conjunction with learning, they are able to gain a better understanding of abstract concepts.**
