SUMMER SAFETY FOR KIDS

Summer is a great time for kids to get outside and enjoy the weather, but it is important to remember safety tips throughout the season.

- 1) **Protect kids' skin:** Kids are especially susceptible to sunburn. The AAP recommends that children wear sunscreen with at least 15 to 50 SPF, and to reapply it every two hours after swimming, sweating, or toweling off.
- 2) **Hydrate:** Always keep kids hydrated, especially the day before a big activity or even the day before a play date.
- 3) **Eating habits:** Ensure that kids maintain healthy eating habits to get the vitamins and nutrients they need to fuel their summer fun.
- 4) **Beware of hot cars:** There is no safe situation, temperature, or length of time for a child to be left alone in a car.
- 5) **Ride safely:** Make sure they are riding a properly fitted bike and wear a helmet.
- 6) **Practice water safety:** The AAP reports that drowning is the leading cause of injury-related death in U.S. children ages 1 to 4, so be extra vigilant when children are around bodies of water.
- 7) **Ward off bugs and tend to bites:** Do not forget the bug spray.
- 8) **Safely enjoy fireworks:** Practice all firework safety recommendations.
- 9) **Prevent playground mishaps:** Find the right playground, do a touch test, wear the right attire, and look for safe surfaces.
- 10) **Do not overdo it on the outdoors:** Kids should take breaks from playing outside by retreating into the shade or into air-conditioning every 20 to 30 minutes.
