Today's technology through computers, video and the Internet has given Kids R Kids the opportunity to offer a unique way for parents to be at "peace of mind" about their child(ren) while at work. Kids R Kids is very excited about being able to bring this new technology and service to our parents.

However, for our children's protection there are some very serious issues that must be addressed and understood. While the video images are protected and security safeguards and access codes are in place to protect our children, it is important to realize that this system works through the Internet, and is only as secure as you the parent allow it to be. You have the option to register online to view your child(ren). To register:

1. Log on to www.kidsrkidsnewterritory.com
2. Select Parent Area
3. Select Online Parent Viewing
4. Click Sign-up "Watch Me Grow"
5. Fill in your information
6. Click Create My Account

Congratulations, you have now completed the registration portion. A member of the management team will now confirm access as it appears. Also, please inform the center of any family members that have registered for access.
