DAY CAMP

November 4th, 5th, and 27th LCPS will be closed and we will be having camp days for our Junior Kindergarten-Middle school students. On camp days the children get to do fun activities such as local field trips, STEAM projects, technology lab, outdoor time and so much more! Stop by the front desk to sign up and get more pricing on our camps.

Our picture day is on November 11th, 12th and 13th. Please see below for the picture day schedule.

November 11th

LBW
Orcas
Clown Fish Pufferfish
Jellyfish
Star Fish
Sibling

November 12th

Sea Turtles
Sea Horse
Seals
Sea Lions

November 13th

Junior Kindergarten
Kindergarten

- This year we are using a new company called Wonder Years Portraits. On November 4th you will find a photo card in your child's cubby. The company asks that you fill one card per family. Wonder Years Portraits gives the school the option to pick one standard background and we chose the Painted Brick which they will be adding fall props to it.

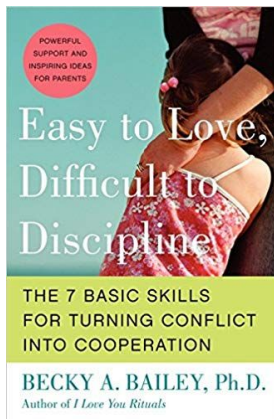

Dear Families,

I am sharing these parenting resources that instill a foundation for success at home or in the classroom.

Sincerely,

Kathy Weinert

Lead Curriculum Trainer

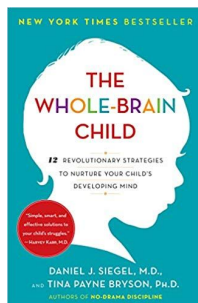

Easy to Love, Difficult to Discipline: The 7 Basic Skills For Turning Conflict Into Cooperation by Becky A. Bailey, Ph.D.

Learn how to stop policing and pleading and become the parent you want to be.

You love your children, but if you're like most parents, you don't always love their behavior. But how can you guide them without resorting to less-than-optimal behavior yourself? Dr. Becky Bailey's unusual and powerful approach to parenting has

made thousands of families happier and healthier. Focusing on self-control and confidence-building for both parent and child, Dr. Bailey teaches a series of linked skills to help families move from turmoil to tranquility.

The Whole-Brain Child: 12 Revolutionary Strategies to Nurture Your Child's Developing Mind by Daniel J. Siegel & Tina Payne Bryson

The authors offer a revolutionary approach to child rearing with twelve key strategies that foster healthy brain development, leading to calmer, happier children. The authors explain—and make accessible—the new science of how a child's brain is wired and how it matures. The “upstairs brain,” which makes decisions and balances emotions, is under

construction until the mid-twenties. And especially in young children, the right brain and its emotions tend to rule over the logic of the left brain. No wonder kids throw tantrums, fight, or sulk in silence. By applying these discoveries to everyday parenting, you can turn any outburst, argument, or fear into a chance to integrate your child's brain and foster vital growth.

Santa Clause will be coming to town on December 11th from 9AM-11AM to take pictures with all of the children. * Picture schedule to follow*

5 Star Review!

The best compliment and gift for us is sharing your support on social media. Please take a moment to show your support.
