April 13th-17th

# APRIL HAPPENINGS

April 13th–17th – Week of the Young Child  
Promoting the importance of early childhood education.

**13th-Music Monday**  
When children sing, dance, and listen to music, they develop their language and early literacy skills while being active and encouraging movement. Make up and record your own unique version of a song or write your own.

**14th-Tasty Tuesday**  
This fun, food-themed day is about more than just treats and crackers. Cooking together connects math with literacy skills, science, and more. Encourage healthy nutrition and fitness habits at home and in the classroom. Create your own healthy snacks and share recipes and photos using the #WOYC25 hashtag.

**15th-Work Together Wednesday**  
When children build together, they explore math and science concepts and develop social and early literacy skills. Use any building materials—from branches on the playground to blocks in the classroom or even couch pillows at home.

**16th-Artsy Thursday**  
Think, problem solve, create! Children develop creativity, social skills, and fine motor skills through open-ended art projects. Celebrate the joy of creative expression using any materials—from crayons and paint to clay and crafts.

**17th- Family Friday**  
We celebrate families as children's first and most important teachers. Thank you for the vital role you play in their growth!

**Career Day: Dress up as Your Future Dream Job!**  
Come to school dressed as what you'd like to be when you grow up.  
Calling All Parents!  
If you'd like to share your career with the class, please let the teachers know to schedule a time to speak with students.
