

Welcome to Kids 'R' Kids #17 School of Quality Learning,

Our school's philosophy is "Hug First than Teach!" Our goal at Kids 'R' Kids #17 Stafford, Texas is to provide the best program to our students, parents and staff. Our school participates in many government sponsored programs which supports our school in keeping low tuition cost and supplying supplies and equipment to keep our school performing at its best.

We are now participating in the Agriculture Food Program for Child Care Facilities (CACFP). This program was established to provide assistance to businesses caring for children and adult care centers, so their programs can supply healthy nutritious meals to their clients.

Our school is very pleased to be apart of this program, which will allow us to enhance healthier meals and snacks to our students. With the assistance from the Agriculture Program our meal times will consist of more fresh fruits, vegetables and proteins and less processed foods or sugar based items.

When your child is enrolled with our program, they are automatically eligible to participate in the Agriculture Food Program. The amount of federal support that we would receive is based on the information you provide on the Student Meal Benefit Income Eligibility Form. This information is kept confidential and is not sent out or shared with anyone. It will be in a secured place at our school. Being a part of any program, there are rules and regulations that are to be followed to participate. The Student Meal Benefit Income Eligibility Form is required to be present during our annual inspection. Your information will be destroyed (shredded) when no longer needed. The support from our parents with this program has been very grateful. It is important that you fill out the attached application in it's entirety to help the federal department to give our program the highest support available.

"We appreciate your support and welcome to our program!"

Thank you,

Management
